GT137

GT226 - Olfa "Silver" 2 Auto-Lock Knife

Features right or left-handed use, blade position auto-lock, and one-segment click action.

GT227 - Olfa XA-1 Ergonomic Knife

This ergonomically correct knife features a comfortable rubber grip for better control and less fatigue.

GT027 - NT Pro A-1 "Red Dot" Knife

The blade can be advanced in 1/2 segment increments for precision control. Right or left-handed use.

GT126 - Olfa "Silver" Stainless Steel Knife

The original Olfa stainless steel knife.

GT127 - Olfa "A" Knife

Used for film pattern cutting and trimming. Features a molded plastic handle for maximum control and comfort. Right or left-handed use.

GT114 - Olfa Pro-Load

Holds up to five blades at a time giving you 65 new cutting segments per load.

GT135 - BLADEater

Designed for professional installers, the BLADEater holds your knife safely and securely. It also allows you to easily snap off and discard blades into a replaceable blade well.

GT105 - 4" Scraper Blades - Carbon, Pack of 10

GT115 - Olfa Stainless Steel Snap Blades, Pack of 10

GT265 - KDS Stainless Steel Automotive Blades, Pack of 50

GT116 - Olfa Stainless Steel Snap Blades, Pack of 50

GT110 - Heavy Duty Triumph Blades, Carbon, Pack of 10

Replacement blades for GT106.

GT108 - 6" Triumph Carbon Scraper Blades, Pack of 25

GT108SS - 6" Triumph Stainless Steel Blades, Pack of 25

GT140 - Single Edge Blades, Carbon, Pack of 100

GT211 - 3" Triumph Blades, Carbon, Pack of 10

GT944 - Automotive Glass Edge Trimmer

Ensures precise "micro-edge" on roll-down windows.

GT137 - Stainless Steel 1" Single Edge Blades, Pack of 100

Scrapers

GT138

GT210

GT138 - Heavy Duty 1" Razor Scraper

Retractable safety scraper; intermediate blade position keeps the blade from sliding out while in use.

GT210 - 3" Triumph Scraper

Smaller version of the regular Triumph scraper. Designed to fit into corners.

GT988

GT106

GT988 - 6" Ettore Scraper

Features a rubber insert on the handle for better control.

GT106 - Red Heavy Duty Scraper

Ideal for film removal. Uses GT110 Heavy Duty Triumph Blades.

GT107

GT107A

GT107 - 6" Triumph Scraper

GT107A - 6" Angled Triumph Scraper

GT107PC - 6" Triumph Scraper with Slide Cover

This is the new and improved version of the slide covered Triumph scraper. With a bigger button and smoother action, the cover easily opens and closes with no hassle. No more fumbling with a separate blade cover, which is safer and more convenient, especially when doing ladder work. Great for regular window cleaning, but not recommended for stripping off old film.

GT107PC

GT983

GT983 - 6" Ergonomic Triumph Scraper

GT983A - 6" Angled Ergonomic Triumph Scraper

GT983A

GT212 - 1" Blade Ade

GT212

GT103

GT103 - 4" Scraper with 6" Handle

The GT103 allows for maximum leverage and speed when removing large areas of existing film.

GT104 - 4" Scraper with Extended Handle

Longer handle allows for even more leverage than the GT103 scraper.

GT104

GT109

GT109 - 1" Clip Scraper

This effective scraper will accommodate standard or stainless steel single-edge blades as well as plastic razor blades.

GT062

GT064

GT122

GT260

GT261

GT057 - 5" Crusher handle

GT058 - 8" Crusher Handle

These handles are designed to optimize your leverage in removing mounting solution. Holds GT257, GT258, GT259 squeegee blades. The GT057 is great for high performance automotive films and smaller residential windows, while GT058 is ideal for all residential and commercial applications.

GT985 - Performax Handle

Ideal for water extraction when used with GT117, GT117B, GT203 or GT257. Features a socket that accepts standard extension handles such as broom or paint roller extensions.

GT257 - 5" Orange Crush

GT258 - 5" Cropped Orange Crush

GT259 - 8" Orange Crush

These blades help expel water from under film while keeping their strength. The 5" Cropped Orange Crush conforms to curved glass. Blades can fit into a handled grip (GT057 or GT058) or be used alone.

GT045 - 140" Squeegee Blade Refill

GT053 - 6" Squeegee & Channel

GT054 - 8" Squeegee & Channel

GT055 - 12" Squeegee & Channel

GT056 - 18" Squeegee & Channel

GT050 - Unger Pro Handle

This rubber-coated squeegee handle works with many different squeegee blade attachments: Clear Max, Blue Max, Blue Squeegee Blade and the regular squeegee blade with the soft rubber insert (for glass prep) in the stainless steel channels. Essential tool for glass cleaning and for using the special higher durometer finishing squeegee blades.

GT050E - Unger ErgoTec Handle

Features a spring mechanism for quick blade changing and a finger indent on top of the handle for complete control. For use with GT053-056 channels with black rubber for cleaning or blue replacement blades (GT118) for installation.

GT042 - 8" Silver Security Squeegee

Comfortable, ergonomic handle is designed especially for security film installation. Curved handle applies more pressure to surface, reducing fatigue and ensuring easier, better installations. Blade is replaceable with either the Security Squeegee (GT041), Flatfoot (GT059) or Pro Squeegee (GT061) blades.

GT205 - The Bulldozer I - Automotive

Allows you to get to those hard-to-reach areas such as behind speakers, brake lights and low-angled rear windows. Features a 6" squeegee blade and is 15" in overall length.

GT206 - The Bulldozer II - Flatglass

Features reinforced ribs on the back side for extra rigidity and leverage. Includes a 6" squeegee blade and is 15" in overall length.

GT209 - The Scrubber

Used to reach behind speakers and brake lights. Scrub away adhesive along the bottom edges of sloped rear windows. Uses replaceable standard White Scrub Pads (GT085) cut 2" by 3". This tool is 3" by 15" long.

GT062 - 6" Pro Squeegee Deluxe

GT064 - 8" Pro Squeegee Deluxe

Pro Squeegees come in a ready-to-use assembly. Used to remove application solution during the installation of flatglass films.

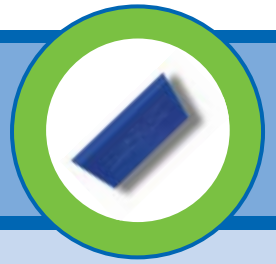

GT122 - Blue Max Squeegee with Handle

Ready-to-use installation squeegee uses Blue Max and Unger Pro handle.

GT260 - 8" Power Squeegee with Handle

GT261 - 8" Blade for GT260

Squeegees & Accessories

GT203

GT203A

GT204

GT203 - Super Clear Max Squeegee Blade

GT203A - Angled Super Clear Max Squeegee Blade

Softer version of the Blue Max squeegee; more flexible for rear window applications.

GT204 - Super Clear Max Squeegee with Handle

Ready-to-use installation squeegee uses angled Clear Max and Unger Pro Handle.

GT059

GT069

GT061

GT059 - 8" Flatfoot Squeegee Blade

Flatfoots are specially angled blades for the 8" Pro Squeegee (GT064). The angle is designed to maximize the surface area in contact with the film, thereby, removing much more mounting solution than a standard Pro Blade with a square edge.

GT069 - 6" Flatfoot Squeegee Blade

GT061 - 8" Pro Squeegee Blade

Replacement blade for 8" Pro Squeegee (GT064) used as a means of removing application solutions from beneath the film during the installation of all flatglass films.

GT063

GT117

GT117A

GT063 - 6" Pro Squeegee Blade

Replacement blade for 6" Pro Squeegee (GT062) used as a means of removing application solutions from beneath the film during the installation of flatglass films.

GT117 - Blue Max 5" Hand Squeegee

GT117A - Angled Blue Max 5" Hand Squeegee

Installation squeegee for automotive and flatglass applications.

GT117B - Square Blue Max 5" Hand Squeegee

Ideal for installing security film.

GT117B

GT118

GT041

GT118 - 6" Blue Squeegee refill

GT150 ★★★

GT235 ★★

GT150 - Red Turbo Squeegee

Used for removal of application solution during the installation process. Also used for installing paint protection film.

GT235 - 5-1/2" Yellow Turbo Squeegee

GT147 ★★

GT148

GT147 - 18-1/2" Yellow Turbo Squeegee Blade

Economy size squeegee usually cut to shorter 4-5" lengths before use.

GT148 - 6" Plain Block Squeegee

GT149

GT208

GT149 - 12" Plain Block Squeegee

GT207 - Side Swiper with Blade

Use GT118-6" as a replacement blade.

GT208 - Side Swiper without Blade

GT207

Squeegees and Hard Cards

GT113 Green, Red, White, Yellow

★ ★★ ★★ ★ ★★ ★ ★

GT202 - The Conqueror

GT202B - Blue Conqueror

Same as the original Conqueror with a slightly harder durometer for more squeegeeing power.

GT256 - Power Stroke, Yellow

Yellow works well with dyed films and first pass on metal films.

GT255 - Power Stroke, Red

Red is great for final pass on metal films.

GT254 - Power Stroke, Blue

Blue has a harder durometer for the ultimate in moisture removal, especially for sputtered films.

GT040 - Slim Foot

Modeled after the Big Foot Squeegee, the slim foot has a slender design for reaching into tighter openings. This no-rib squeegee helps reach behind brake lights and has a vinyl grip for secure handling.

GT043 - Big Foot

Designed to reach curved rear glass windows, this 6" squeegee with a 12" handle allows you to apply the necessary pressure in those tight areas.

GT033 - Red Devil Squeegee

Great for tight corners and maneuvering around gaskets.

GT044 - Little Foot: Blue, Red & Black

These squeegees measure about 6" along the usable edge. The pointed edge of this tool allows you to squeegee in very tight areas. The Little Foot has plenty of room on the squeegee for a good grip.

GT091 - Slammer

Used for cleaning corners and along gaskets, wicking water out along borders and easily reaching rear windows and sharp angles.

GT092 - Shuttle

A hard card with the ability to reach into tight areas located at the bottom edge of rear window glass.

GT032G - Tail Fin Green (Soft)

GT032Y - Tail Fin Yellow (Firm)

Great for getting behind brake lights and other rear window applications.

GT034 - Whale Tail

Great for getting behind brake lights and other rear window applications.

GT035 - Whale Tail Replacement Blade (not pictured)

GT036 - Whale Tail Replacement Handle

GT038 - Clear Super Squeegee, Extra Large 12"

GT201G - Green Contour (Soft)

GT201Y - Yellow Contour (Firm)

GT068 - Hard Card Sharpener

GT113 - Diamond Tip Cards (Green, Red, White & Yellow)

These 5" cards have angled corners that allow installers to reach into tight corners making it a great tool for automotive and flatglass applications.

GT175

GT982 - Spectrum Detective Meter

Effortlessly demonstrate three performance characteristics at a time: UV, Visible Light and Infrared transmission values.

The Spectrum Detective shows your customers performance numbers they can understand and proves to them that your "high-performance" window films are worth their investment. Simply slide a glass sample into the opening and see the resulting values displayed. No additional light sources are needed. Everything is self-contained in a convenient padded carrying case.

Note: Glass samples not included

GT960 - Low-E Coating Detector

Detects the presence and location of thermal-resistant coatings (Low-E) used on energy efficient single and dual-pane glass. Never requires calibration. Powered by a 9 volt battery (included).

GT964 - UV Meter with Temperature Reading

This meter gives UV transmission percentages, UV power, and temperature. The GT964 is the most versatile product available for measuring UV. You can measure UV intensities (irradiance), UV transmission percentage, and temperature in both Fahrenheit and Celsius. Unlike other UV meter products on the market, the GT964 is extremely simple to operate. The digital display is continually updated with real-time readings. The GT964 is powered by a 9 volt battery (included).

GT966 - VLT and Power Meter

The GT966 shows the performance of your film and proves to your customer that your product reduces fading by controlling visible light. It calculates visible light transmission percentages, power readings (W/m²), measures visible light spectrum (400-700NM), and includes a digital thermometer that shows temperatures in Celsius and Fahrenheit. Powered by a 9 volt battery (included).

GT974 - Professional Meter Sales Kit - with Soft-sided Case

Our UV and solar sales presentation kit offers a single source for convenient and convincing sales demonstrations. The kit includes locations for glass samples, digital meters, lamps, product literature and more. Show your customer performance numbers they understand by using our simple Solar Transmission GT968 and UV GT973 Meters. This demonstration will sell your customers because it operates in terms they can understand. A popular optional item that may be added to the kit is the GT978 Laser Thermometer.

Kit Includes: GT968 Digital BTU & Tans-Meter, GT962 Heat Lamp Unit, GT973 UV Meter, Soft case with carrying strap.

Note: Glass samples not included in kit.

GT174 - Pocket Detective Meter

Measures visible light transmission and visible light reflectivity on fixed windows.

GT175 - Pocket Detective 2.1 Base

Used to measure visual light transmission on roll-down windows.

Please note: Not all items pictured are included in kits.

Installation Accessories

GT075

GT076

GT077

GT075 - Yellow Film Marker

Handy for marking film prior to installation of unusual shapes and angles, marking contaminants for removal and marking film edges on side roll-ups during the trimming process. Yellow grease mark easily wipes away.

GT076 - Film Opaquer Pen, Thin Point

Used by installers to hide fine line mistakes in trimming which cause excess light intrusion at the film edge.

GT077 - Film Opaquer Pen - Broad Point

Used by installers to hide wider mistakes in trimming at film edges.

GT078

GT078-75

GT078 - 1-1/2" Black Acrylic Felt - 50' Roll

Helps reduce scratching of automotive films on some vehicle roll down windows.

GT078-75 - 3/4" Black Acrylic Felt - 50' Roll

GT991

GT157-159

GT990 - 3/8" Red Film Tape - 150' Roll

GT991 - 1" Red Film Tape - 150' Roll

GT157 - 1/2" Black Out Tape - 150' Roll

GT158 - 1" Black Out Tape - 150' Roll

GT159 - 1-1/2" Black Out Tape - 150' Roll

GT981

GT188

GT981 - "Do Not Roll Down" Window Stickers (1000/Roll)

Features low-tack adhesive for easy removal by customer.

GT188 - Windshield Wizard

Allows for quick and accurate trimming around rearview mirror mounts.

GT186

GT187

GT186 - 8" Triangle 30/60 Degrees with Circle Templates

GT187 - 12" Triangle 45/90 Degrees with Circle Templates

GT183 - 18" Straight Rule

Installation Accessories

GT190

GT191

GT132

GT130

GT194

GT190 - Five-Way Trim Guide

GT191 - The Edge Tool

Used to pull back window gaskets.

GT132 - Hook Tool

GT130 - Gasket Wizard

This device is used to carefully pull back gaskets for easy film-to-glass installations below the gasket. Rub rails are located at the base of all automotive window glass for weatherproofing and can get in the way of installation. Many installers find the Gasket Wizard helpful, even without the use of the bungee cords.

GT194 - Gasket Push Stick

GT921 - Jiffy Steamer Film Remover

The Jiffy Steamer is a commercial-grade steamer that is impact resistant with a 1300 watt heating element. It heats up in two minutes and provides up to two hours of steam per fill-up. Great for removing film and adhesive from rear automotive windows.

GT921B - Replacement Fuse for GT921

(not shown)

GT921C - Replacement Water Bottle for GT921

(not shown)

GT921

GT250

GT251

GT250 - Heat Gun

GT251 - Wagner HT3500 Digital Heat Gun

This model allows you to heat shrink in low or high fan speeds and has a variable temperature setting to fine-tune the amount of heat needed for specific applications.

GT979 - Kevlar Heat Gloves (One Pair)

GT979

GT176

GT176 - Waist Apron (Plain)

Apron has large pockets for multiple tool storage and tabs for holding film solution spray bottles.

GT090 - Spraymaster Trigger Sprayer

An overall heavy-duty one quart sprayer, this spray bottle comes with a five year warranty and is chemically resistant. It is equipped with a strong trigger and holds 32 ounces of liquid.

GT090

GT096

GT097

GT096 - Polyspray 2

This pressurized spray bottle holds more solution than the 32 ounce bottles and helps reduce "finger fatigue," eliminating the need for pumping while spraying via a simple trigger. Handy for large windows and long-duration sprays. Spray nozzle is adjustable.

GT097 - 32 Oz. Spray Bottle

GT098 - Adjustable Spray Trigger

GT094 - Replacement Nozzle for 3 Gallon Sprayer

GT094A - Brass Sprayhead Tip 8002 (SP)

(not shown)

GT095 - Pressure Relief Valve for GT102

(not shown)

GT094

GT102

GT101-HG

GT102 - 3 Gallon Pressure Sprayer

Can be used for window cleaner or application solution. Essential for those big commercial jobs. Long 13' hose allows for great mobility and large storage capacity gives uninterrupted and fatigue-free installation time. Uses GT094 nozzle which features a brass fan-spray tip.

GT101-HG - 25' Replacement Hose and Spray Gun

For use with Cornelius-type tanks.

Installation Accessories

GT085 - White Scrub Pads

Great for cleaning windows before installation.

GT160 - 19 Oz. Film Guard

GT162P - Adhesive Remover (Pink)

GT164 - Sprayway® Adhesive Remover

Caution: GT162P and GT164 contain chemicals which may damage some car interiors.

GT715 - Sprayway® Glass Cleaner

GT716 - Plexus® Plastic Polish

Anti-static plastic polish, safe for all window films. Leaves behind a protective sheen on any plastic surface.

GT733 - Dirt-Off®

One quart concentrate cleaning solution.

GT735 - Film-On®

One quart concentrate mounting solution.

SMX100 - Ultra-Bond

One gallon concentrated mounting solution.

GT910 - 60" Film Handler

GT911 - 72" Film Handler

Film Handlers use both metric and imperial measurements.

Note: Ladder not included.

GT821 - Blade Holder for GT822

GT822 - 72" Box Slitter Channel

Aluminum U-channel for sliding over the edge of a film box to serve as a straight edge when making horizontal cuts (across the web width) after pulling film out to desired length. Handy for in-field work. Saves the cost of more expensive film cutters.

GT912 - Film Handler Cutter Assembly

GT913 - 12" Filmhandler Riser Assembly

For security film with 6" cores

GT940 - Filmhandler Repair Kit

GT941 - 1/8" Shim for Filmhandler Slitter

Keep film from "telescoping" by adding film cutter shims to fill the gaps that may exist between 3" hubs and film.

GT942 - 1/4" Shim for Filmhandler Slitter

GT943 - Filmhandler Replacement Blades

GT986 - Filmhandler Blade Holder
